Experience - Scrum Master & Front-End Developer

Burpline Network Limited
• Jan 2015 - present

- Deployed a product of value as we transitioned the team from waterfall to an agile framework via using scrum.
 - Anchored on team health and collaboration, and promote a culture of Commitment, Focus, Openness, Respect and Courage
 - Ensure that all Scrum events take place and are positive, productive, and kept within the timebox
 - Helping the Scrum Team focus on creating high-value Increments that meet the Definition of Done;
 - Maintains focus on time to value, aligned to business objectives
 - Coordinated and ensured there was full engagement of the all SCRUM events (The Sprint, Sprint planning, Daily Scrum, Sprint review and Sprint retrospective)
 - Help the Delivery Team understand the need for clear and concise Product Backlog items
 - Facilitate crucial conversations with teams when conflict resolution.
 - Drive effective Product Goal definition and Product Backlog management
 - Using agile tools such as JIRA to create and maintain visibility of team's work.
 - Help establish empirical product planning for a complex environment
 - Coaching the team members in self-management and cross-functionality;
 - Facilitating stakeholder collaboration as requested or needed
 - Implemented the use of user stories to further enhance communication between team and product owners and propel deliverables.
 - Support delivery teams in release planning and impacts to the plan
 - Periodic Updating of stakeholders with key metrics reports derived from burn-down and burn-up charts
 - Facilitate Scrum events as requested or needed
 - Identify issues, risks, and recommendations of Agile teams and operating models
 - Develop learning plans to elevate teams to higher levels of maturity and effectiveness
 - Continually seek opportunities to increase customer satisfaction and deepen customer relationships.
 - Causing the removal of impediments to the Scrum Team's progress
 - Support practitioners and projects, identifying areas for improvement, developing improvement plans and working with individuals and teams to implement those improvements
 - Present and support Agile education and training activities as required
 - Lead creative problem solving via design thinking and other collaborative problem solving processes
 - Collaborate and leverage contacts in the wider Agile community to deliver
